

LMU MUNICH FACULTY OF BIOLOGY

KEYNOTE SEMINAR SERIES

Fridays at 12.00
Large Lecture hall
Biozentrum Room B00.019

6 December 2019

LUISA COCHELLA

Research Institute of Molecular Pathology, Vienna, Austria

„Transcriptional and post-transcriptional mechanisms
of cell diversification“

17 January 2020

CHRISTA SCHLEPER

University of Vienna, Austria

Impact from the third domain of life:
The role of Archaea in biogeochemical cycles and greenhouse gas production

24 January 2020

MARTIN KLINGENSPOR

Technical University of Munich, Germany

„Tipping the balance: brown and white adipocytes
as targets for the treatment of metabolic diseases“

7 February 2020

JODI NUNNARI

University of California, Davis, USA

„Mitochondrial behavior“

21 February 2020

ALEXEY POLILOV

Lomonosov Moscow State University, Russia

„At the miniaturization limit — results and prospects
of studying the smallest insects“

24 April 2020

ARIANE BRIEGL

Leiden University, Netherlands

„Cryo-electron tomography contributes to our understanding of
bacterial interactions with their environment“

15 May 2020

SUSANNE RENNER

Biozentrum, LMU, Munich, Germany

„Watermelon domestication over the past 5000 years —
insights from ancient DNA“

19 June 2020

AUDREY DUSSUTOUR

CNRS & Université Paul Sabatier, Toulouse, France

„Learning and decision making in brainless organisms: evidence from
slime molds“

3 July 2020

OLIVER STEGLE

EMBL, Heidelberg, Germany

To be announced

24 July 2020

CHRISTIAN RUTZ

University of St Andrews, Fife, Scotland, UK

„Crafty crows, tropical islands, and the mystery
of human technological evolution“

2019 / 2020
