Intern (m/f) Clinical Operations

The Clinical Operations department plays an important role in the management of clinical trials. Our experienced clinical operations professionals lead the cross-functional clinical trial teams, manage the collaboration with clinical research sites and ensure high quality trial execution from planning to close-out. As an Intern in Clinical Operations you will have the opportunity to learn about the operational execution of clinical trials by supporting the Clinical Operations Management Team or Clinical Trial Teams with different projects. This involves tracking and follow up on actions, and maintaining trackers and database systems with study information.

Your Requirements:

- Ongoing Bachelor's or Master's studies in biology, biotechnology, pharmacy or similar
- MS Excel and PowerPoint skills
- Interest in the pharmaceutical industry, especially in the drug development
- Good written and verbal communication skills in both German and English
- Interpersonal credibility and reliability
- Team spirit and the capability to work independently
- Ideally, duration of internship is at least 6 months

We offer:

- Creative working in X-functional teams
- Participation in interesting projects
- Flexible working time
- Working in an attractive, high-quality equipped building with restaurant
